

WELCOME TO ZETAS GARDEN CENTER

Zetas Garden Center is one of the most trendy in Sweden. We are situated in the south of Stockholm very close to the shoppingcenter in Kungens kurva .

Zetas is specialized in a very large assortment of plants including perennials, annuals, trees and bushes.

We have a lot of exclusive accessories for the garden. You will also find inspiration in our show garden.

In April and May the magnolias are flowering. You can see Japanese maples that are more than 50 years old in beautiful autumn colours during September-October. During the summer we show the most trendy among the annuals together with many perennials.

In our café you can enjoy a delicious lunch, salad or just take a cup of coffee together with our homemade cakes. From the café you have a lovely view of the garden.
